

Safety data sheet

Page: 1/7

BASF Safety data sheet according to Regulation (EC) No.1907/2006

Date / Revised: 22.04.2008

Product: **Cellini® Red 420CR7F**

Version: 2.0

(30322179/SDS_COS_GB/EN)

Date of print 25.04.2008

1. Substance/preparation and company identification

Cellini® Red 420CR7F

Use: cosmetic ingredient

Company:

BASF SE
67056 Ludwigshafen
GERMANY

Contact address:

BASF PLC
PO Box 4, Earl Road
Cheadle Hulme, Cheshire
GREAT BRITAIN
SK8 6QG

Telephone: +44 161 485-6222

Telefax number: +44 161 4274

E-mail address: product-safety-north@basf.com

Emergency information:

International emergency number:

Telephone: +49 180 2273-112

2. Hazard identification

No particular hazards known.

3. Composition/information on ingredients

Chemical nature

Mica group minerals

metal oxide

organic pigment

4. First-aid measures

General advice:

Remove contaminated clothing.

If inhaled:

If difficulties occur after dust has been inhaled, remove to fresh air and seek medical attention.

On skin contact:

Wash thoroughly with soap and water. Consult a doctor if skin irritation persists.

On contact with eyes:

In case of contact with the eyes, rinse immediately for at least 15 minutes with plenty of water. If symptoms persist, seek medical advice.

On ingestion:

Rinse mouth and then drink plenty of water.

Note to physician:

Treatment: Symptomatic treatment (decontamination, vital functions).

5. Fire-fighting measures

Suitable extinguishing media:

water, foam, dry powder, carbon dioxide

Specific hazards:

carbon dioxide, carbon monoxide, toxic gases/vapours, nitrogen oxides

Special protective equipment:

Wear a self-contained breathing apparatus.

Further information:

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

6. Accidental release measures

Personal precautions:

Avoid dust formation.

Environmental precautions:

Do not empty into drains.

Methods for cleaning up or taking up:
For small amounts: Pick up with suitable appliance and dispose of.
For large amounts: Pick up with suitable appliance and dispose of.

7. Handling and storage

Handling

Breathing must be protected when large quantities are decanted without local exhaust ventilation.
Avoid contact with the skin, eyes and clothing.

Protection against fire and explosion:
No special precautions necessary.

Storage

Further information on storage conditions: No special precautions necessary.

8. Exposure controls and personal protection

Components with workplace control parameters

fine dust

Personal protective equipment

Respiratory protection:

Suitable respiratory protection for lower concentrations or short-term effect: Particle filter with medium efficiency for solid and liquid particles (e.g. EN 143 or 149, Type P2 or FFP2)

Hand protection:

Chemical resistant protective gloves (EN 374)

Suitable materials also with prolonged, direct contact (Recommended: Protective index 6, corresponding > 480 minutes of permeation time according to EN 374):

e.g. nitrile rubber (0.4 mm), chloroprene rubber (0.5 mm), polyvinylchloride (0.7 mm) and other
Supplementary note: The specifications are based on tests, literature data and information of glove manufacturers or are derived from similar substances by analogy. Due to many conditions (e.g. temperature) it must be considered, that the practical usage of a chemical-protective glove in practice may be much shorter than the permeation time determined through testing.

Manufacturer's directions for use should be observed because of great diversity of types.

Eye protection:

Safety glasses with side-shields (frame goggles) (e.g. EN 166)

General safety and hygiene measures:

Handle in accordance with good industrial hygiene and safety practice. Due to the colouring properties of the product closed work clothes should be used, to avoid stains during manipulation. Hands and/or face should be washed before breaks and at the end of the shift.

9. Physical and chemical properties

Form:	powder	
Colour:	red	
Odour:	odourless	
pH value:	7 - 11 (40 g/l, 20 °C)	(DIN EN ISO 787-9)
Melting point:	The substance / product decomposes.	
Flash point:	Not applicable	
Flammability:	does not ignite	
Ignition temperature:	Not applicable	
Explosion hazard:	not explosive	
Vapour pressure:	Not applicable	
Density:	3.2 kg/l	
Relative density:	3.2	
Bulk density:	260 kg/m ³	
Solubility in water:	insoluble	
Hygroscopy:	Non-hygroscopic	

10. Stability and reactivity

Hazardous reactions:

No hazardous reactions when stored and handled according to instructions.

Hazardous decomposition products:

carbon oxides, nitrogen oxides, toxic gases/vapours

11. Toxicological information

Acute toxicity

LD50 rat (oral): > 2,000 mg/kg

Irritation

Primary skin irritation rabbit: non-irritant

Primary irritations of the mucous membrane rabbit: non-irritant

Other relevant toxicity information

The product has not been tested. The statements on toxicology have been derived from products of a similar structure and composition.

12. Ecological information

Ecotoxicity

Assessment of aquatic toxicity:

At the present state of knowledge, no negative ecological effects are expected.

Persistence and degradability

Assessment biodegradation and elimination (H₂O):

The colourant is insoluble in water and can thus be separated from water mechanically in suitable effluent treatment plant

Other adverse effects

Adsorbable organically-bound halogen (AOX):

This product contains no organically-bound halogen.

Additional information

Other ecotoxicological advice:

The inhibition of the degradation activity of activated sludge is not anticipated when introduced to biological treatment plants in appropriate low concentrations.

13. Disposal considerations

Observe national and local legal requirements.

The UK Environmental Protection (Duty of Care) Regulations (EP) and amendments should be noted (United Kingdom).

Contaminated packaging:

Uncontaminated packaging can be re-used.

Packs that cannot be cleaned should be disposed of in the same manner as the contents.

14. Transport information

Land transport

ADR

BASF Safety data sheet according to Regulation (EC) No.1907/2006

Date / Revised: 22.04.2008

Product: **Cellini® Red 420CR7F**

Version: 2.0

(30322179/SDS_COS_GB/EN)

Date of print 25.04.2008

Not classified as a dangerous good under transport regulations

RID

Not classified as a dangerous good under transport regulations

Inland waterway transport

ADNR

Not classified as a dangerous good under transport regulations

Sea transport

IMDG

Not classified as a dangerous good under transport regulations

Air transport

IATA/ICAO

Not classified as a dangerous good under transport regulations

15. Regulatory information

Regulations of the European union (Labelling) / National legislation/Regulations

The product does not require a hazard warning label in accordance with EC Directives.

Other regulations

The data should be considered when making any assessment under the Control of Substances Hazardous to Health Regulations (COSHH), and related guidance, for example, 'COSHH Essentials' (United Kingdom).

16. Other information

Due to the merger of Engelhard Corp. and BASFGroup all Material Safety Data Sheets have been reassessed on the basis of consolidated information. This may have resulted in changes of the Material Safety Data Sheets. In case you have questions concerning such changes please contact us under the address mentioned in Section I.

Vertical lines in the left hand margin indicate an amendment from the previous version.

If you have any queries relating to this MSDS, its contents or any other product safety related questions, please write to the following e-mail address: product-safety-north@basf.com
