

TRANSPORT EMERGENCY CARD (Road)

Card #TR0012
Revision
Class 3 ADR
It.
Packing Group II

LOAD

BIJU ULTRA UNT

- FLAMMABLE LIQUIDS HAVING A FLASH POINT BELOW 23 DEG C NOT TOXIC & NOT CORROSIVE
- Coloured liquid or paste or solid - Perceptible odour

NATURE OF DANGER

- Highly flammable
- May evaporate quickly
- The vapour may be invisible. The vapour is heavier than air and spreads along ground
- May form explosive mixture with air, particularly in empty uncleaned receptacles
- Heating will cause pressure rise with risk of bursting and subsequent explosion
- The vapour may have narcotic effect
- May have irritant effect: on eyes, on air passages
- Decomposes in a fire giving off toxic fumes. The effect of inhalation may be delayed
- Decomposes in a fire giving off toxic fumes: chlorine

PERSONAL PROTECTION

- Suitable respiratory protection device
- Goggles giving complete protection to eyes
- Plastic or synthetic rubber gloves. Boots
- Eyewash bottle with clean water
- Two self-standing warning signs, handlamp, warning vest

GENERAL ACTIONS BY THE DRIVER

- Stop the engine
- No naked lights. No smoking
- Notify police and fire brigade as soon as possible
- Mark road with self-standing warning signs and warn other road users or passers-by
- Keep public away from danger area. Keep upwind

ADDITIONAL AND/OR SPECIAL ACTIONS BY THE DRIVER

- Any action only if without personal risk
- If practicable: use shovel, broom, small collecting container
- Avoid direct contact with substance
- Stop leaks if without any risk
- Prevent liquids entering water courses, sewers, basements and workpits. Vapour may create corrosive atmosphere
- Contain or absorb leaking liquid with sand or earth or other suitable material
- Warn everybody - Explosion hazard
- If substance has entered a water course or sewer or been spilt on soil or vegetation, advise police

FIRE (information for the driver in case of fire)

- Do not attempt to deal with any fire involving the load

FIRST AID

- In case of burns immediately cool affected skin as long as possible with cold water
- Remove contaminated clothing immediately and wash affected skin with plenty of water
- Persons who have inhaled fumes produced in a chemical reaction may not show immediate symptoms. They must lie down and keep quite still and should be taken to a doctor with this card. Patient must be kept under medical supervision for at least 24 hours
- If substance has got into the eyes, immediately wash out with plenty of water. Continue treatment until medical assistance is provided
- Seek medical treatment when anyone has symptoms apparently due to inhalation, swallowing or contact with skin or eyes. Even if there are no symptoms send to a doctor and show him this card

SUPPLEMENTARY INFORMATION FOR EMERGENCY SERVICES

- Keep container(s) cool by spraying with water if exposed to fire
- Extinguish with water spray, foam or dry chemical. Do not use water jet
