

TRANSPORT EMERGENCY CARD (Road)

Card #TR 0233
Revision 01/1999
Class 3 ADR
It.
Packing Group III

LOAD

Crosslinker OX 12

- FLAMMABLE LIQUIDS, HAVING A FLASH-POINT BETWEEN 23°C AND 61°C
- Coloured liquid - Perceptible odour
- Immiscible or partly miscible with water - Lighter than water

NATURE OF DANGER

- Flammable
- Slightly corrosive
- May evaporate quickly
- Slightly toxic
- The vapour may be invisible. The vapour is heavier than air and spreads along ground
- Heating will cause pressure rise with risk of bursting and subsequent explosion
- May have irritant effect: on eyes, on skin, on air passages
- Decomposes in a fire giving off toxic fumes. Symptoms may develop after several hours

PERSONAL PROTECTION

- Suitable respiratory protective device
- Goggles giving complete protection to eyes
- Plastic or synthetic rubber gloves
- Eyewash bottle with clean water
- Two self-standing warning signs, handlamp, warning vest

GENERAL ACTIONS BY THE DRIVER

- Stop the engine
- No naked lights. No smoking
- Mark roads with self-standing warning signs and warn other road users or passers-by
- Keep public away from danger area. Keep upwind
- Notify police and fire brigade as soon as possible
- Keep public away from danger area. Keep upwind

ADDITIONAL AND/OR SPECIAL ACTIONS BY THE DRIVER

- Any action only if without personal risk
- If practicable: use shovel, broom, small collecting container
- Avoid direct contact with substance
- Stop leaks if without risk
- Prevent liquids entering water courses, sewers, basements and workpits. Vapour may create explosive atmosphere
- Contain or absorb leaking liquid with sand or earth or other suitable material
- If substance has entered a water course or sewer or been spilt on soil or vegetation, advise police

FIRE (information for the driver in case of fire)

- Do not attempt to deal with any fire involving the load
- Keep containers cool by spraying with water if exposed to fire
- Do not use a water jet

FIRST AID

- If substance has got into the eyes, immediately wash out with plenty of water. Continue treatment until medical assistance is provided
- Remove contaminated clothing immediately and wash affected skin with soap and water
- Seek medical treatment when anyone has symptoms apparently due to inhalation or contact with skin or eyes
- Persons who have inhaled the fumes produced in a fire may not show immediate symptoms. Patient must be kept under medical supervision for at least 24 hours
- In case of burns immediately cool affected skin as long as possible with cold water

SUPPLEMENTARY INFORMATION FOR EMERGENCY SERVICES

- Keep container(s) cool by spraying with water if exposed to fire
- Extinguish with waterspray, foam or dry chemical
- Do not use water jet
