

# Oral Care Products

Oral care remains a key category in personal care, where health and hygiene go hand in hand. At Cornelius, we offer a trusted range of high-quality ingredients suitable for toothpaste and mouthwash formulations, helping brands develop effective and consumer-friendly products.

# Oral Care

Supplier	Product Name	INCI / Chemical Description	Accreditations	ISO16128 NOI*	Properties & Benefits
Argile du Velay	CosGREEN™	Illite, kaolin & montmorillonite	100% natural, free from silica and quartz	-	Velay clays have a unique high quality composition free from silica and quartz, leading to them being awarded a geographical indication protection so the term Velay clay can only be used for a clay mined from the Velay basin. Thanks to its special composition, Velay CosGREEN™ clay is appreciated for its gentle abrasion in the preparation of toothpaste.
Bloomage	Bio moist Hyaluronic Acid	Sodium Hyaluronate	Halal compliant, Vegan friendly	1.00	An oral care specific Hyaluronic Acid produced by fermentation to improve the oral environment, moisten the oral cavity and relieve dry mouth.
Cornelius	Aloe Vera 200:1	Aloe barbadensis Leaf Juice Powder	Vegan friendly, Prop-65 compliant, 100% pure and natural	-	Derived from the aloe vera plant, it is used in oral care products for its potential anti-inflammatory, antibacterial, and wound-healing properties. It's found in toothpastes, mouthwashes, and other oral hygiene products to help soothe gums, reduce inflammation, and combat harmful bacteria.
	CorCare ML	Menthyl lactate	Palm-free, Halal & Kosher compliant, Vegan friendly, Prop-65 compliant	1.00	A cooling agent commonly used in oral care products like toothpaste and mouthwash. It provides a pleasant, refreshing cooling sensation without the potentially irritating effects of pure menthol. It also helps mask other potentially unpleasant fragrances in oral care formulations.
	CorCare PVMA	Calcium-sodium PVM-MA copolymer	Palm-free, Halal & Kosher compliant, Vegan friendly, Prop-65 compliant	0.00	A film former to help keeping toothpaste-fluoride on the enamel after brushing.
Eurocarb	Activated Carbon RFBF 1012	Activated carbon	Halal Compliant	-	Used in oral care products, primarily for its potential to absorb surface stains and toxins, leading to a brighter smile and fresher breath.
Precheza A.S	Pretiox AV-01 FG	Titanium Dioxide	Palm-free, Kosher certified, Halal compliant, Vegan friendly	0.00	Widely used in oral care products, primarily as a white pigment in toothpaste, to enhance their visual appeal. It also contributes to the texture and helps in removing stains and discoloration.

# Oils & Butters

Supplier	Product Name	INCI / Chemical Description	Accreditations	ISO16128 NOI*	Properties & Benefits
