Developments in the Middle East

Dear Valued Partners,

In light of the ongoing developments in the Middle East, we are closely monitoring the situation and remain in regular contact with our suppliers and logistics partners to assess any potential supply chain impacts.

Although we do not directly source raw materials from the region, the situation remains volatile. As a precaution, we encourage customers to place forward orders as early as possible to allow us the best opportunity to plan and mitigate any potential disruption.

Thank you for your continued partnership.
